**ORIGINAL or RESTORED TO ORIGINAL:** The premise is that these cars are as close to original as possible. Modifications to these cars that are not original will result in deductions of points. Changes for safety reasons, for example such as turn signals, will not result in point loss provided the safety installation is completed in a professional manner. A major loss of points due to non-originality will result in the car being disqualified from this class. A detailed overview of judging is available on the website shown at top of this form.

**MODIFIED:** The premise is that these cars are modified to the owner's specifications, i.e., an expression of what they like or think the car should look like. This category is open to interpretation by the owner of how the car should run, sound, and look. Replica Cars by year are registered in this category. A detailed overview of judging is available on the website shown at top of this form.
